

# Finish your Setup.

## ☐ Okta Login and Setup

The Okta Dashboard will be your homepage for all your Apps like Workday, Gmail, Concierge, etc. [Log in to Okta Single Sign On](#) (SSO), open Chrome and go to [Salesforce.okta.com](https://salesforce.okta.com). Make sure Chrome is set up as your default browser. **New Hires:** After Okta login, you'll be prompted to set up Okta Verify, be sure to do so with your personal phone for now (You can [re-enroll to your corporate phone](#) later) Follow the prompts to Okta Dashboard.

## ☐ Connect to Zscaler

Find [Zscaler](#) on the top menu bar. If it's not there. Find it in /Applications/Zscaler. Open and connect to Zscaler to secure your connection and access internal Salesforce resources. You will log in through Okta SSO through the Zscaler window afterward and allow location services.

## ☐ Sync your SSO password

Find the SSO Extension (Key icon on the top right menu bar), and log in, you will then be prompted to synchronize your password. **New Hires:** After syncing your Mac password, return to the [SSO Extension and Change Password](#). Keep in mind this changes your Mac and Okta password.

## ☐ Google Sync in Chrome

For assistance syncing your bookmarks, history, passwords, and other settings securely to your Salesforce-Google Account, turn on [Google Sync in Chrome](#).

## ☐ Google Drive for Desktop

Keep your Mac files safe and backed up. Take action to [set up Backup using Google Drive](#) to access files saved on your old laptop as well as ensure new files are backed up to the cloud.

## ☐ Reinstall applications or request new licenses

Do you need a license to install the application on your new laptop? [Submit a software request](#) via Concierge. If this is a **replacement machine**, you will need to reinstall any applications you had before. Check your inbox/concierge for any previous setup instructions.

## ☐ Personalize your Mac

Learn how to customize and navigate through your new Mac with these useful [skill sessions](#) hosted by Apple for Salesforce employees. Furthermore, there are Salesforce-themed wallpapers you can download from the [Brand Central Asset Library](#).

## ☐ Acquired Employees Only

You'll need to identify your Mac as linked to your previous organization. You can use [Self Service to update the Merger & Acquisition tag](#) for your Mac. This allows additional configurations to be deployed to your computer.
